

SUPERVISOR'S CORNER

By: Greg J. Goldstein, Town of Neversink Supervisor

Adopt-A-Road

As mentioned in last month's column, we will again be starting up the Adopt-A-Road program. Particulars of the program will be in July's column. If interested, you may contact the Town Clerk's Office in July for more information.

Cell Towers

Testing has been completed and according to Homeland Towers the preliminary results look good. They are in the process of finalizing a lease. The next step will be the introduction of a Communication/Reception Antennae Local Law.

Community Beautification

The Renaissance continues to mount barn quilts and "spruce-up" many areas of the town.

Fairgrounds

The Board has approved Tri-County Fence Company to make some improvements at the fairgrounds, including the installation of gates at the tennis courts to keep vehicles out. We would ask if anybody sees any vandalism at the fairgrounds to please report to the NYS police, DEP police, and/or the Town Hall.

Road Work

The Lows Corners Bridge located on Route 55A is undergoing repairs. There will be one-lane traffic in that area for approximately a four to six week period.

Sewer Project Update

The sewer project has finally begun. The field office is located on Route 55 next to the library (Marion Robinson's old house). Resident Engineer, Kevin Cloonan will be overseeing the job. If you need to contact him, the telephone number at the field office is 985-0525. Progress has been better than expected and, hopefully, with the continued great weather, it will continue.

Town Pool

The town pool will open on Wednesday, June 27th, and swimming lessons will begin July 9, 2007. Please note that swimming lesson registration is available **ONLY** at the Town Clerk's office.

If you have any questions or concerns, please do not hesitate to contact me at 985-2262 ext. 301.
